

## **Accident Investigation (D8 and Jillpoke)**

**The hooktender sitting on this machine had just finished a road change and he was injured after signaling the yarder operator to tightline the running lines.**

**As part of the safety and health program employers are required to investigate each near miss, fatal and recordable injury/illness to:**

- (a) Determine the cause or causes.**
- (b) identify measure to prevent recurrence.**
- (c) Inform all employees of the preventive measures.**

**Fatal and recordable injury/illness investigations must be written.**

**Near miss investigations need to be discussed, but they do not need to be written. 437-007-0125(1)-(6)**
