

Oregon OSHA Safety Workshops

Dates to Remember:

- **September—30**
- **October—1**

Due to recent statewide budget cuts, we are currently in the process of changing Public Education. Don't worry though - we're still committed to providing you with the same quality service you've come to expect from us. If you are a past or current student, we would like to offer our thanks for choosing to learn from us. You are the ripple effect bringing safety information to your workplaces and communities.

As part of Oregon OSHA, we are dedicated to serving the business community, both employers as well as employees. We strive to provide our students with the very best information available and work hard to make sure that the services they receive exceed their expectations. We are committed to building long-term relationships with the people we work with and serve.

Beginning **October 1, 2010**, the online classes you have grown accustomed to, will be changing. If you are currently working through a course, please complete it by **September 30, 2010**. After that date, you will be required to take the newly revised course.
